ESCAPE BREATHING APPARATUS	P/WK
Sabre Dash 10min Hood Type Escape Set	£20.00
Drager 10min Hood Type Escape Set	£20.00
Sabre Dash 15min Hood Type Escape Set	£24.00
Sabre Sprint 10min Mask Type Escape	£29.00
Drager OXY-K DRAGER OXY-K30min Chemical Escape Set c/w Chest Strap	£40.00

Sabres Elsa-10-B offers a solution to emergency escape in a gas alarm situation. Worn over the shoulder, the set activates on opening, ensuring a 10 minute escape time for the wearer.

Drager Oxy-K offers a small light working/escape set where the wearer needs to move easily. The set offers compact size and long duration. Oxy-K is worn around the neck and chest and incorporates a hood to give eye and face protection.

WORKING B.A. (FRESH AIR)	P/WK
MSA Fresh Air BA Set c/w 9mtr Hose	£28.00
MSA Turbo Flow 110v Blower Unit for above	£28.00
MSA 9mtr Extension Hose for use with blower	£9.00
MSA 18mtr Extension (9mtr hose with mask must still be used)	£18.00
Hose to Hose Coupler	£1.00

The MSA fresh air breathing apparatus set, offers a versatile alternative to self contained B.A. The set can operate over 9mtrs unassisted, but with the use of a Turbo-Flo blower unit, can operate 2 personnel to a distance of 54mtrs. These sets allow for long duration work and are comfortable to wear. The sets offer a simple safe method of work ideal for tank cleansing. Remember always ensure the blower unit is situated in clean air.

We also offer Drager PSS90, Sabre Centurion or Contour S.C.B.A. sets. Several of the Centurion sets can be fed from an airline system. The full B.A. set offers an increased protection, by having a positive pressure to the face mask, whereas the fresh air set offers positive volume. These sets can provide a range of working duration, dependent upon cylinder size. All sets offer a first breath facility as well as a manual override. Unshaven personnel may not get a true air tight seal, a pre use test will confirm if this is the case.

BREATHING APPARATUS	P/WK
Sabre Centurion c/w One Cylinder 45min	£57.00
Dräger PSS 90 c/w 300 Bar Carbon Cylinder 67.5min	£65.00
Extra Steel Cylinders 6ltr, 9ltr OR 11ltr	£12.00
Extra Dräger 9ltr 300 Bar Carbon Fibre Cylinder	£18.00
TROLLEY & AIRLINE FED B.A.	P/WK
Modul Air/Astral c/w 2 Cylinders and 30m Hose	£98.00
Sabre Survivor 10min Escape c/w Bandolier Set	£35.00
Sabre Bandolier for use with Trolley	£28.00
30m Extra Breathing Air Hose	£25.00
45-50m Extra Breathing Air Hose	£30.00
'Y' Piece with 3m Tails to run 2 sets	£9.00
Trolley to Claw Adaptor (For site compressor use)	£3.50
Compressor to Trolley Hose	£3.00
Cylinder Recharge	£3.00
High Pressure Reducer 300 bar TO 6-9 bar output	£25.00
Mini Hose Reel c/w 3m CEJN Inlet Hose	£10.00
Boxed Cylinder Set, 30m Hose, Reel, Regulator, Flite and Cylinder Con	£105.00

This cylinder/airline fed set is ideal for tank and vessel entry. It uses our own mini hose reel, which holds up to 30 metres of hose or has a larger hose reel available for up to 90 metres. A Sabre flite bandolier BAs set and a reducer which regulates pressure to 6-9 bar. All of this is self contained in one of our transit cases. This set is fully approved for EN139 hose fed use and includes a 10 minute escape leg cylinder as a back-up facility.

Scott Airline Set

The Modul Air or Astral trolley offers a longer duration where full B.A. is required to be used. The trolley can be used with a compressor giving unlimited duration and having 2 cylinders as back up. Using a 'Y' piece with 2x 3mtr tails, enables 2 people to operate from the unit. It should be remembered an escape set is still required and that a realistic time for escape must be adopted.

ALL COMPRESSORS SHOULD HAVE AN AIR PURITY TEST DETAILS ARE ON PAGE 11

FALL ARRESTORS AND MAN RIDING WINCHES	P/WK
2.5m Webbing Fall Arrestor	£9.00

Sala 8518000 5 Piece Hoist System (can attach 2 winches)	£70.00
Sala 8512894 CounterWeight Hoist System (can attach 2 winches)	£150.00

P-W60L full man riding winch, has a braked lowering facility and a safety overload, so that the wearer can not be injured upon recovery. The winch is available with either an 18m or 37m wire rope and can be fitted to a variety of different mounts.

We carry a range of tripods, davits and pole hoists which are suitable of taking a variety of the fall arrestors or winches we offer for hire and sale. We will be happy to help you with sorting the correct one for your task.

RG A4 or Integra-R fall arrest retrieve blocks. The retrieval winch, is for an **emergency situation only**. The unit has a shock tag which indicates if it has been used, hence needing to be serviced immediately.

Specialising in lifting and handling solutions
didsbury

RESCUE & ANCILLARY ITEMS	P/WK
Firefly II ADSU (Automatic Distress Signalling Unit)	£12.00
Sked Emergency Fold-up Rescue Stretcher	£37.50
Bosun's Chair	£36.00
120db Air Horn (for emergency alert)	£3.50
Alloy Two Stage Ladder 3.95m extended	£15.63

The **Bosun's Chair** is an ideal way to work while suspended and does not suffer like harnesses with the problems of blood restriction. The wearer needs a separate fall arrest device

The **Sked** emergency roll up stretcher comes packed in a convenient back pack so as to enable easy access to the required area of use. The base has a number of hand lifting points and cross over straps so as to ensure the patient is easy to move as possible. The base also has provision for lifting strops so that it can be used in conjunction with helicopter rescue as well as be able to support the patient for a vertical lift. The stretcher comes with a full set of instructions and all other accessories which cater for just about every emergency rescue situation.

RESUSCITATION	P/WK
Microvent or Sabre Mars Oxygen Resuscitator (Man/Auto)	£74.00
Smart Bag Manual Resuscitator	£5.00

WEIGHTANKA®

MOBILE DEADWEIGHT

The WEIGHTANKA® mobile deadweight system is designed for use on flat or sloping roofs, details of angles and surfaces available upon request. The system is an 'E' class anchor CE approved to the PPE directive and ISO 14567. Whilst this unit can be used in conjunction with fall arrest devices, this unit comes into it's own when used for fall restraint purposes. Fall restraint ensures that the user can not pass beyond the edge, hence this if possible is a far safer option for height safety.

For advice on use of this product please ring our office 01404-44007.

PF 400 Blower

PF 400 a 110v air mover, moves 3600 m³/hr via 300mm ducting in 5m lengths these can be joined easily to form longer lengths. The fan is not Ex rated and so must only be used to blow in explosive

ATEX

SAF30

SAF30 is a 110v ATEX fan approved for Zones 1 & 2. The unit produces 3570 m³/hr and can be used to extract or vent your confined space. Used in conjunction with the linkable 5 metre long anti-static ducting and the

VENTURI AIR MOVER

A highly efficient, light weight design makes this venturi blower convert 37cfm to produce 1500cfm.

We now have 10 kva transformers for hire or sale.

GENERATORS	P/WK
2.7Kva Honda GX160 Petrol Generator	£29.00
7.5Kva 110v Butt Fusion Generator	£60.00
8.75Kva 110v / 240v Vanguard V Twin 16HP Easy Start	£60.00
10Kva 110 / 240v Honda long run Generator	£70.00
10Kva AVR 110 / 240v Honda long run Generator	£90.00

We have a range of single and dual voltage generators available from 2.7Kva to 10Kva. All of these generators use the latest smooth power flow regulators and we also have voltage regulated so you can run sensitive electronic equipment. The larger sizes are both manual and electric start. The 8.75Kva has a long run fuel tank supplied. We also have standard socket gang extensions with 240v blue plugs for providing power to a site office, this is only practicable with the 10Kva auto voltage regulated.

7.5Kva BUTT FUSION GENERATOR

We hold stock of specialist plastic butt fusion generators. These generators provide a lazy power curve specific for plastic butt fusion. Standard generators will trip trying to run butt fusers these units only provide 110v outlets.

EZI-LIFT MANHOLE LIFTER	P/WK
Ezi-Lift Companion Set with Standard Stockport Keys	£40.00
Small Set of Keys (10mm)	£5.00

The bolt provides up to 40 tons of safe thrust. This unit will pull any manhole cover, even if it has had tarmac over

it as in this case. With only 4 parts including the 2 keys, the unit is easy to transport and simple to use. **The picture inset top left shows the bolt being used to break the seal before lifting.**

INTRINSICALLY SAFE LIGHTING	P/WK
Wolf 2 Cell Right Angle Torch	£5.00
Wolf MKII Hand Lamp & Charger	£12.00
Wolf Shoulder Strap Toplite & Charger	£40.00
Oldham Cap Lamp C/W Charger, Belt & Helmet	£12.00
AES 110v x 100w Ex Light & Tripod C/W 25m Flex. Extra Flex is available (110v plug is not ex rated)	£40.00
To increase the length of the AES cable add price show per extra 25m to a max 100m length	£10.00 P/25m
AES 110v x 100w Atex Festoon 6 units 90m (plug not ex rated)	£240.00
Portable Slam Hornet	£134.80
Slam Hornet Linkable Atex Lighting C/W 50m Lead	£80.00
Slam Hornet Linkable Atex Lighting C/W 20m Lead	£70.00
Zone 0 lighting set 110v supplied with transit case	£150.00

The AES 110v Atex light for small chambers and the festoon ideal for tanks. Hung by it's hook or mounted on a tripod. Standard with a 25m flex but can be supplied in multiples of 25m up to 100m maximum length. **The 110v plug is not Ex rated, and so must not enter the hazardous area.**

The Slam Hornet offers a high light output with the advantage of being linkable and completely ATEX rated. All plugs and sockets are ATEX and but the power source must be outside the hazardous area if it is not ATEX. Light output of 5800 lumens is provided by 2 x 36w compact fluorescent lamps. The unit is 1000mm x 100mm and weighs 3.3kgs.

The Portable Slam Hornet is ideal for walk through inspections.

The ZONE 0 lighting set is for the most extreme hazardous situations, wing and tank entry. The unit is supplied by 110v which is then transformed down to 12v giving a powerful light from 3 x 3w led's. The unit is supplied with purpose made ABS transit case.

We offer a range of Wolf hand held ATEX rated torches, from the handy 2 cell right angle , Wolf MKII hand held rechargeable and the shoulder carried Toplite, where a high intensity beam is required. All offer full ATEX protection, and right angle torches have a clip mount so that they can be fixed to a harness etc so as to leave both hands free. We have whatever solution you need for ATEX lighting.

200/500
By-Pass
and various
fittings.**

We carry a range of multi-size pipe stoppers and fittings. If you need to simply plug a pipe, or provide flow through the area while work is carried out, these stoppers will provide the solution. These pipe stoppers offer many size options and can work within the sizes shown in the table above. Hence a 200/500 will fit any pipe from 200mm to 500mm. All of the stoppers shown in the range will hold 0.5 BAR which is equal to a 5m head of water.

All stoppers require bracing.

Air Test Kit (Hand Pump 'U' Gauge & Hose)					£4.00

Traditional steel wind up pipe stoppers. These will tolerate slight variations in pipe sizes. All sizes are shown as a pair with one test end and one blank end. Please specify if you require a different set up.

CABLE AVOIDANCE	P/WK
Radiodetection Cable Avoidance Tool Cat3+	£23.50
Radiodetection Genny 33Khz for above	£23.50
Flexitrace Complete	£40.00
33Khz SEWER SONDE (mouse) for above (* shown)	£25.00
33Khz SUPER SONDE (mouse) for deep work (*shown)	£27.50

We stock the very latest CAT3+ featuring an LCD depth indicator and shallow cable strike alert alarm. Combined with a Genny with special lamp post signal connection clips this should make strikes a thing of the past.

SONDE
33Khz setting.

FlexiTrace will show where all those pipe bends are when used in conjunction with the Genny.

PLASTIC SAFETY PRODUCTS	P/WK
Safewall Traffic Divider per unit	£4.00
Safegate Barrier per 0.8m length	£1.50

For bulk purchases ring for our best price.

Safewall

These tough durable lane dividers can be filled with either sand or water and can be stacked for storage.

- One metre long and 600mm high
- Unique linking design
- UV stabilised for colour retention

Safegate Barriers

Available in 0.8 metre lengths this system offers total versatility and is easy to transport in a small van. The sections are joined together via the clips to form any shape you require, a cost effective answer.

- 800mm wide x 1000mm high

Radios

LICENSED RADIO'S FOR HIRE	P/WK
GM360 Base Station Desk Top Tray, Desk Microphone, Power Supply & DI Pole Ariel	£20.00
GP 340 16 Channel Ex Rated Radio in VHF	£25.00
^ 446 Radio's shown below app' 3K range No License Required	
TK-3101 or TK-3201 Radio, Charger & Spare Battery	£9.00
TK-3101 Voice Activated Headset	£3.50
Aqua Bag (waterproof bag for any radio)	£1.00
Entel HT950 Full ATEX Radio, Submersible to 5 metres	£25.00
Entel HT446 Radio, Submersible to 5 meters	£10.00

We stock the very latest Entel non licensed radio's. The HT446 shown left and the ATEX rated HT950 shown right. These professional rugged radios are easy to use & submersible to a depth of 5mtrs.

VHF and UHF radio's can only be supplied if you are in possession of a current license, a copy of which will be required so that the radio can be set to your frequency.

SPEECHLINE HARD WIRE ATEX COMMUNICATIONS	P/WK
Headset or Throat Microphone	£30.00
Controller Box for up to 4 Lines	£150.00
3 Way Junction Box	£25.00
10 meter Line with Connections	£22.50
15 meter Line with Connections	£27.50
30 meter Line with Connections	£40.00

The SPEECHLINE system is the ideal communications system for confined spaces. It allows constant communication and can have other users to be added. Unlike radio's this system gives a hard feed to each user so bends and platforms can not obstruct communication.

Training Facility Dedicated Confined Space

TRAINING PRICES

Gas Detection Awareness Training Half Day	£600.00 up to 8 people
Air Purity Certification Training Half Day	£600.00 up to 8 people
Height Safety (Various Levels of Competence)	P.O.A

Medicals Wessex and South West Water standards Minimum 4	£100 per person or £400

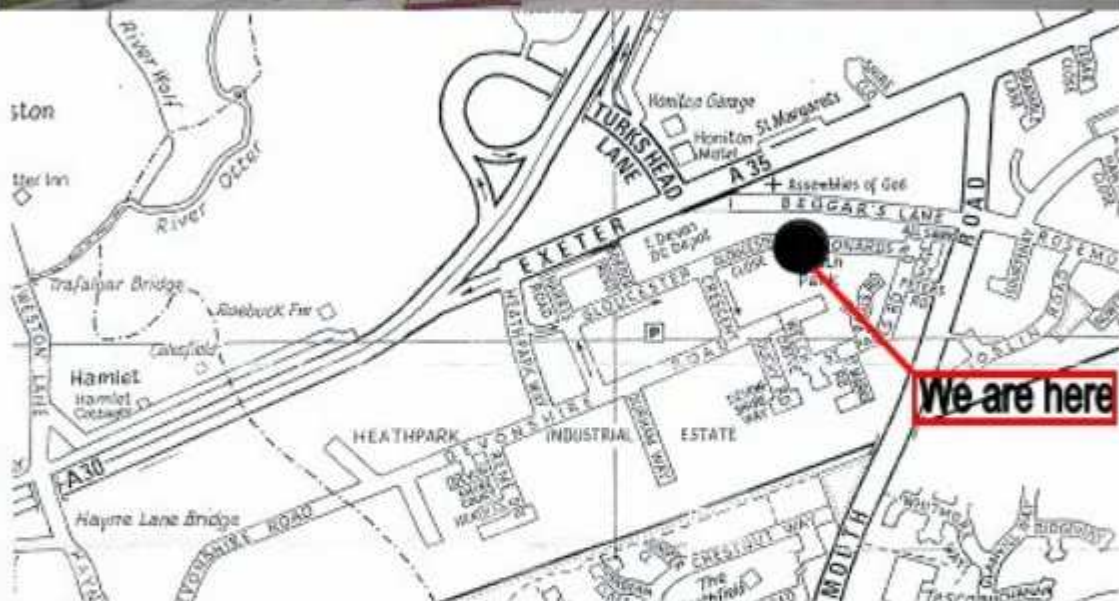

We offer many courses although we always have confined spaces running to which you can place from 1 person. We can offer individual courses tailored to suit your needs and can also provide on site training for certain courses. Our training room is able to facilitate up to 10 people for confined spaces and a maximum of 10 for basic height safety.

We have a dedicated confined space training area, registered with City and Guilds as a SOUTH WEST WATER SATELLITE TRAINING CENTRE. As such we are able to offer the new Water UK certificate Scheme 6150 which is recognised by all UK Water Companies.
