

## DH24DVA/NICD 24V SDS-Plus Hammer Drill

- High performance drilling: 24mm capacity in concrete
- Three mode action: rotary drilling, rotary hammer and roto-stop mode for light chiselling
- High drilling speed plus 'save power' mode to prevent drill breakage when drilling small holes
- Compact body with soft grip handle
- Push fit bit reception locks drills in place quickly and securely
- Cylindrical housing and fan cooled motor for extended durability
- Replaceable carbon brushes
- Electric feedback and brake
- Injection moulded case with accessory storage compartments

### **Standard Accessories**

- UC24YFB charger
- 2 x 2.0Ah NiCad batteries
- Carrying case
- Side handle
- Depth gauge
