

DH36DAL

36V 3-Mode Rotary Hammer Drill

**Li-ION
BATTERY**

ELECTRO-PNEUMATIC ACTION

- Long battery life - unique protection circuit gives up to 1300 battery cycles
- Light weight battery design
- Three mode action includes hammer only for light chipping
- Powerful motor for excellent drilling performance
- Fastest drilling speed in its class
- Compact & lightweight design
- Variable speed & reverse
- 'Save power' mode
- Electric brake
- Replaceable carbon brushes for longer motor life

**SUPPLIED WITH
2 x 2.6Ah
LITHIUM-ION
BATTERIES**

Standard Accessories

- Two 2.6Ah Li-Ion batteries
- UC36YRL fan cooled charger
- Side handle
- Depth gauge
- Carrying case

NOTE:

Hitachi Li-Ion batteries hold their charge for longer, which means there is no discernible loss of performance throughout the battery charge. The user should be aware that the machine may cut out when the battery needs recharging. This is not a battery fault; the new technology protects the battery cell, giving extended charging cycles when compared to previous battery technology.
