

H45MR

SDS-Max Demolition Hammer

All Hitachi Hammers conform to the
EC Noise Directive 2000/14/EC

- Computer simulated optimum striking characteristics give improved 'self chiseling' and greater control
- High reliability mechanism for preventing idle hammering extends service life
- Compact and lightweight design
- Vibration-absorbing handle
- Low vibration level of 8.32m/s²
- Sturdy aluminium casing
- Variable lock mechanism allows chisels to be set in 12 positions
- Soft grip rear handle
- D-type front handle can be rotated through 360° and fitted forwards or backwards

Sound Power Level: 101dB(A)

Vibration Level: 8.3m/s²

Model No	Bit Shank	Power Input	Full Load Impact Rate	Impact Energy	Length	Weight
H45MR	SDS-Max	950W	3000/min	12.5J	454mm (18")	5.9kg
